

Artistic assignments Fine Arts Printmaking & Drawing 2024

For enrolment in academic year 2024-2025

The entrance test provides one day of drawing assignments on the Academy's main campus and two days of workshops in the Printmaking & Drawing studio.

As drawing and free graphic expression are central to our department, we will spend the two days in the studio focusing on a number of advanced drawing assignments. Together, we will explore your artistic and creative possibilities in relation to graphics and to autonomous drawing. We would like to know you, and look forward to your interest in art, your drive and your general working attitude.

You will receive practical information on location, time and materials needed along with the invitation to the artistic assignments.
