

## **Covid-19 measures during the summer music course 17-21 August 2020**

During the summer music course we create a safe environment for the lessons and individual study. In doing so, we have based ourselves on international research results and the input of instrument and safety experts.

The summer music course is limited to the individual lessons. For safety reasons, the final concert and the chamber music lessons will not take place.

### When entering the Campus

1. Everyone enters the building along the main entrance (Desguinlei).
2. Mouth masks are mandatory if you move inside the building.
3. You register with the colleague at the reception desk.
4. You wash your hands at the mobile sink or use the disinfectant gel.
5. You follow the indicated flow in the building and immediately go to the classroom.
6. The door handles and the classrooms are cleaned and disinfected on a regular basis, but touch as few things as possible.
7. You minimize leaving and entering the classroom during your stay. If you do leave the classroom in the meantime, make sure you wash or disinfect your hands.
8. At the end of your activity, you leave the room immediately and register again at the reception desk at the exit.
9. Before you leave, you wash your hands at the mobile washbasin or use the disinfectant gel.

### During the classes

1. For the one-to-one lessons, the teachers keep distance from the students. For singers and wind instruments: min. 4 to 5 meters, for the other instruments: min. 1,5 to 2 meters.
2. For the wind instrument lessons, we use a U-shaped mobile plastic screen around the musician for safety reasons.
3. For the pianists we provide soft washing soap and disposable wipes to polish the keyboard before and after playing. In addition, these musicians use disinfectant gel or wash their hands thoroughly before and after the lesson. We do not disinfect the keyboard instruments: these materials do not tolerate alcohol. Pianists wear a mouth mask when playing the instrument during the classes.
4. There will be a break between each lesson, during which the room will be ventilated as much as possible.

### Lunch

The student restaurant *Club Cons* is closed. Everyone brings their own food and drinks. The vending machines are empty. Lunch can only be taken in the garden.

### Afterwards

If you have been on the campus and it turns out (up to 14 days after your visit to the campus) that you have tested positive, please notify the AP info line via +32 3 220 59 99.
